# EVERWIPE™

Supercharged Towels

- Engineered Versatility
- Consistent, Cost Effective Wiping Systems

- The Preferred Wiping Tools for Critical Tasks
- Specialized Lines for Lint & Contaminant-Free Environments

The **Everwipe™ Series** offers a complete line of Professional Grade Wiping products to perform in almost any work environment. The **Everwipe™ Series** evolved from a need to design engineered wiping tools that can perform the right task for the job at hand.

Our versatile dispensing systems are ideally suited for bench top, wall mount, or mobile job sites, while our innovative packaging design is well received by even the most discerning clientele. As a valued customer of the **Everwipe™ Series**, we are confident that you will recognize why the **Everwipe™ Brand** is quickly becoming the benchmark by which all other wipers are measured.

- Absorbency and Durability in Wet or Dry Environments
- Integrity in the Toughest Applications

Integrity • Consistency • Performance...Guaranteed.

Everwipe™ Series	Colors	Technical / Performance
202		Midweight DRC engineered wiper offers superior absorption qualities as a general purpose towel
404	 	Heavy duty DRC technology offers superior absorption and increased durability for an array of wiping tasks.
505	 	Super Heavy Duty DRC technology offering the ultimate "cloth-like" feel in a reusable, disposable wiper
606		Hydroentangled, spunlace technology offering a durable critical task wiper that resists abrasion and solvents, contains no binders or glues, is low linting and highly absorbent in ink, oil, water and solvents.
808		Hydroentangled, spunlace technology at its Best. The 808 series offers the most delicate, "silk-like" material available while still providing maximum strength and absorption in both oil and water based environments.

Applications / Industry	Solvent Strength	Absorption	Durability	Versatility
Our most popular and versatile wiper. Its soft, absorbent qualities lends itself to polishing, glazing, paint prep, and solvent based tasks. Strong enough for industrial applications while soft enough for use on hands and face.				
A heavier grade wiper with a soft, absorbent quality that lends itself to polishing, glazing, paint prep, and solvent based tasks. Strong enough for industrial applications while soft enough for use on hands and face.				
Extremely thick and absorbent, the 505 series is the ultimate "rag replacement" disposable towel. Commonly used in industrial, machine shops, automotive, or wherever heavy wiping is needed.				
Our most widely used critical task wiper. Low linting characteristics combined with its ability to absorb both water and oil while holding up in the harshest solvent environments makes it ideal for use in the optical, painting, printing and aerospace industries.				
Our Premiere Critical Task wiper. Capable of almost any wiping task, this low lint, delicate wiper is perfect for Plating, Optical, Printing, and Aerospace industries.
